

### Author's Closing Comments

Repealing ***this One Federal Law***, which has been on the books since 1945, will reduce health cost by 50% or more, by removing the monopoly status the Health Insurance Companies now have, under this law, by allowing foreign owned insurance companies to sell health insurances to Americans in the US, for a fraction of the premiums charged by Blue Cross Blue Shield. etc., which is prohibited by this law.

***The Losers will be the Special Interest Groups, PACs., your friendly Congressional Representatives***, whose Campaign Committee funding will be reduced. Since the Insurance Companies can no longer rob you of your money, under the protection of this law, then turn around and give a portion of this as 'Campaign Contributions' to the candidates running for office in all three branches of the US Government, including the judiciary.

***The Biggest Losers will be the Multimedia Network News-ABC,CBS,NBC &CNN***-since they could no longer be able to charge their exorbitant Campaign Advertising Time charges, which is often is in excess of a Million Dollars per minute of National Advertising. Since candidates will no longer have the money-***your ripped off money***-to pay them.

Read how you can have this Repressive Law removed by following a technique explained in Dave Ryan's Editorials, in USA News and Information Service, the On line Inter Active News Medium, at:
